20 February 1952

Dear Bill,

Thanks for your very interesting letter. I took the liberty of showing it to the President because of your remarks on the quality and potentialities of our Chinese Communist playmates and he likewise found it interesting. I hope you will do this again whenever you have time.

Have you seen Johnston and Kirkpatrick, who have been in your vicinity? They report, among other things, a certain resurgence of the difficulties we have been encountering in FEC, although not at all to the same extent. Van Fleet apparently knew very little about what our people were doing in Korea, although they have been making some progress. Things here otherwise are much the same except that we miss you.

Nory would join me in sending love to you. She sees Mrs. Wyman frequently and they have been doing some work together of various kinds. Take care of yourself and keep your head down.

Faithfully,

W. B. Redell
